PROGRAM
November 7, 2003 7:30 P.M.

Speaker:
Lars Karlsson AA6IW

24 GHz EME
(Earth-Moon-Earth) Moon Bounce

Join us for pre-meeting eyeball
at Su Hong Restaurant , 1039 El Camino Real, Menlo Park
Food will be served at 6:00 sharp, so guests will be on time for the PAARA
meeting. Those arriving late will be responsible for their own order and bill.

—PAARA Radio NET every Monday evening at 8:30 P.M., local time—
on the 145.230 -600 MHz repeater, PL tone off

Lars Karlsson AA6IW

November 7th Program:
24 GHz EME (Earth-Moon-Earth)
Moon Bounce

Lars Karlsson AA6IW, 24 GHz EME World Record Holder, will talk about the construction of EME stations and the equipment used for the 24 GHz World Distance Record. Learn what it's like to be in an EME QSO, and what obstacles new enthusiasts encounter.

Attention Members / Advance Notice:
Get your "show and tell projects" ready for the December 5th PAARA meeting

6 pm— at Su Hong Restaurant
1039 El Camino Real
Menlo Park

—across from Kepler's Book Store—

2003 Pacifcon News:

Christopher McIntyre age 11, passed his Technician License Examination after a long day at the Technician "cram course." This is a huge accomplishment for one of PAARA's favorite members. "Great job Christopher!" "Hams helping one another" was again demonstrated when Kb (KG6QQR) donated his new Pacifcon prize of a Kenwood TH-G71A-HP, dual band H.T. to new Technician, Christopher. Mom (**Kristen K6WX**) is beaming. Don't you love Amateur Radio? Yessss!

Ron Chester W6AZ won the "Best Keyer Award" at Pacifcon's Saturday evening QRP event. Ron's innovative and interesting combination of clipboard, log, keyer, and unique audio amplifier consisting of a blue funnel with plastic (pizza lid riser) speaker adapter, set him well above the fierce competition. "Yaaaa Ron!"

PAARA member **KD6OCS Mikey**, won the "Pacifcon Grand Prize Drawing" of an

Icom IC-706MkIIIG HF/VHF transceiver with Power Supply.

It gets more interesting when you consider the fact that prior to the "Grand Prize Drawing", Mikey won a tool kit, his ticket was put back into the raffle drum, and then drawn out again to win the "Grand Prize"!

"I did indeed win the 706. The set of Craftsman pliers was actually won by my dad, Jeff AD6MX who is also a PAARA Member.

I was just holding on to his ticket my ticket only came out of the drum once right at the very end!", Mikey KD6OCS

Technical Tip

~Vic. Black, AB6SO

There has been a lot of interest in portable and back packing antennas since the February PAARA meeting demo of the self supporting Saint Louis Vertical Antenna (no guy wires needed). The antenna was designed by the St. Louis QRP Club and is based on a South Bend telescoping fiberglass fishing rod 20 feet long. It collapses to about 40" in length for easy portability. The original fishing rod was a South Bend model, but it is difficult to find.

An almost identical rod is the Black Widow distributed by Cabela's, a mail order outdoor equipment supplier. Several models are available and can be used either alone or in combination to make self supporting verticals or collapsible, rotatable dipoles for various bands. Here's a listing of the various models:

- 1). 10 foot model, closed length 45-1/4 inches, 3 sections, order number BH-11-0503, order code (010). Price: \$10.49.
- 2). 13 foot model, closed length 45-1/4 inches, 4 sections, order number BH-11-0503, order code (013). Price: \$13.99.
- 3). 16-1/2 foot model, closed length 45-1/4 inches, 5 sections, order number BH-11-0503, order code (165). Price: \$17.99.
- 4). 20 foot model, closed length 45-1/2 inches, 6 sections, order number BH-11-0503, order code (020). Price: \$21.99.

These can be ordered by Phone at 1-800-237-4444, 24 hours a day, 7 days a week or by 24 hour Fax Service at 1-800-496-6329. Mail orders can be sent to Cabela's, 812 13th Avenue, Sidney, NE 69160.

Charges for UPS Express Shipping within the continental US are:

\$4.25 for orders of \$0 - \$15,
\$6.25 for orders of \$15.01 - \$35.00,
\$7.25 for orders of \$35.01 - \$55.00,
\$8.25 for orders of \$55.01 - \$75.00,
\$9.25 for orders of \$75.01 - \$100.00.

UPS Next Day Air Shipping is also available for Phone orders only. You may want to combine orders with other club members to save on shipping charges (coordinate orders on the Monday night net). Cabela's has an excellent reputation for prompt fulfillment of orders. Run the numbers on the rods, add some PVC pipe and wires and see what kind of antennas you can design. Remember to bring them to show and tell if you come up something interesting.

~Vic, AB6SO

Radio History and Radio Collections...

The Antique Wireless Association The Antique Wireless Association (AWA) is a nonprofit historical society founded in 1952 with about 4,000 members. The AWA publishes The Old Timer's Bulletin, a fabulous resource for those interested in the history of radio, television and other electronics, which is available through AWA membership.

Phil's Old Radios - Antique Radio Gallery This is a great site, with a gallery of photographs and pictures of radios in Phil Nelson's collection of Trans-Oceanic radios, Bakelite radios, Tube portables, Transistor Radios and more. The site has some radio restoration and building projects, including a nice one for a short-wave crystal radio. You also can place a free radio want ad on the "unclassified ads" page (the list of ads is long, so we suggest using the find function on your browser to find what you want).

Explore Jonathan Winter's Bellingham Antique Radio Museum online. This museum, located in Bellingham, Washington, is a must see if you're ever going to be visiting the Pacific Northwest. Here you will find old-time radio broadcasts, a crystal radio project (with a detailed introduction about crystal radio sets), images from the Bellingham radio collection, and technical information for radio collectors. Surfing the Aether is an interesting site with the history of radio from pre-1900 to the present, organized by decade. There are also some wonderful sound clips of radio broadcasts such as a report on the attack on Pearl Harbor, a live radio broadcast about the 1937 crash of the Hindenburg, and the panic-causing "Mercury Theater of the Air" by Orson Wells.

Crystal Radio Links...

So you've built the Oatmeal Box Radio on this site, and you want to improve the design? Go to Owen Pool's site, Crystal Radio Resources for his Peanut Specials. Owen's site also has an extensive list of crystal radio links, tips on things such as bandspreading and DX, and plans for building a convertible crystal radio (you can swap in a simple "triode" detector/amplifier), an RF signal booster, and more. Owen is a Society member, and he's one of the resident experts lurking around on Rap 'n Tap, so be sure to give him a warm hello!

SkyWaves. This is Al Klase's site (he's a member too), and he has posted several pages of interest to the crystal radio enthusiast. You'll find "Crystal Set Design" 102, a crystal set tutorial, and some nice tips for mounting crystals to use in detectors. You'll also find photographs of some of Al's radio reproductions, some communication receivers and gear (the Russian maritime radio receiver is a must-see), and information on designing a SWL antenna distribution system for connecting multiple LF/MF/HF receivers to a single antenna.

There is a new forum on Yahoo! that is devoted to crystal radio. It's called The Crystal Set Radio Club, and its members are true radio enthusiasts (some of them are members of the Xtal Set Society too). Check it out! ~Vic, AB6SO

PAARAGraphs Ad Rates

PAARAGraphs accepts paid advertisements from non-members.
 (short personal ads remain free for members in good standing).

All ad rates listed are per issue only.

1. Not for profit ads by association members for ham-related items and wants. No cost for business card size ads (additional space at \$2.50 per business card size).

2. For Profit organizations and/or individuals: \$5-business card size, \$25-half page, \$50 full page or back cover.

These fees may be reduced or waived in exchange for a valuable consideration that is given to the Association or its general membership. Such consideration must be in addition to any existing arrangements with the association.

The PAARAGraphs editors reserve the right to reject any ad deemed to be not in the best interest of the Association. All fees payable in advance by the year with "scanner-ready" copy or text-only ads. Give payment and copy to Bob Korte

PAARA · Palo Alto Amateur Radio Association · P.O. Box 911, Menlo Park, California 940260911

- Club meetings are on the first Friday of each month, 7:30pm at the Menlo Park Recreation Center, 700 Alma Street, Menlo Park, CA
- Radio NET every Monday evening, at 8:30pm, on the 145.230-600 MHz repeater, PL tone off.

Membership in PAARA is \$12.00 per calendar year which includes a subscription to PAARAGraphs, \$6 for additional family members (no newsletter).
 Make payment to the Palo Alto Amateur Radio Association, P.O. Box 911, Menlo Park, CA 94026 -0911
