Think Like a Backpacker George Zafiropoulos

Description: In this presentation, George will describe the process of design, theory of operation and use of the highly portable PackTenna HF wire antennas and thoughts for packing light when operating radio on the trail.

Bio: George has been a ham since 1972. He has a wide variety of radio interests including home brewing, QRP, and repeater building. His current station is a Flex 6400, an Elecraft K3, and a modest 6 band vertical (6BTV) and several QRP rigs. His favorite mode is HF CW and he can be found on DMR talk group 31075. George is the designer of the Sierra Radio Systems repeater control systems and the PackTenna line of portable antennas. George is also the co-host of the Ham Radio Workbench podcast. You can listen to over 150 episodes of the show on any podcast player or directly from website <https://www.hamradioworkbench.com>. Additionally, George was honored to be interviewed by Eric Guth, 4Z1UG, on Eric's QSO Today Amateur Radio Podcast. You can hear that interview at <https://www.qsotoday.com/podcasts/kj6vu>

This meeting will be a Hybrid Meeting Zoom and In Person

Time: May 6, 2022 07:00 PM Pacific Time

President's Corner

May 2020

If you didn't attend last month's Electronics Flea Market, it was a success for the sponsoring club and the sellers that managed to get one of the few available spaces as the site is much smaller. PAARA is sponsoring the May 14th event and we need members to assist in many aspects of hosting the event. This is the ONLY fundraising event the club has and helps support the Repeater, Field Day and PAARAGraphs along with other smaller activities. Now is the time to show your support for the club.

Well, moments ago (4/27/22 @12:46 PM) I received an email from ASVARO canceling the May 14th EFM! Seems the City of Sunnyvale received too many complaints about the noise and parking challenges from the residents thus

(President — Continued on page 2)

(President — Continued from page 1)

felt the event was too large for the chosen location. Please put your thinking caps on and assist ASVARO in finding a suitable location so the event can move forward. More important than just suggesting some location is to provide contact information for a suitable person at that location for ASVARO to contact. As they say, it's all about the contacts you have to make it easier to find a way into a company instead of cold calling. Even better would be a company that either officially or unofficially already has a ham club to make it easier to contact the correct person within an organization and have some "inside" help.

A big thanks go out to the two antenna crews that have successfully removed antennas and towers from KN6DHY's home QTH (Rob, KC6TYD; Christopher, AI6KG; Clark, KK6ISP; Mikko, AB6RF; Darryl, KI6LDM; Gary, KI6HIG; and Doug, KG6LWE) as well as K6JAT's home QTH (Mikko, AB6RF; Darryl, KI6LDM; Rebar, N6DB, Christopher, AI6KG, Gary, KI6HIG, Clark, KK6ISP, Jim, K6SV; and Doug, KG6LWE). This is a valuable service that PAARA offers to hams in the area making life easier for surviving family members and others affected by the passing of a ham. Please let Doug know if you'd like to join the next effort and learn something about taking towers and antennas down.

The month of May might be the last month we can integrate Zoom into a general club meeting! Joel, KD6W, is moving to Arizona! This means he and his video equipment will not be available for use during general meetings. I'm guessing everyone has enjoyed the larger base of presenters we've benefited from over the last year or two as well as the ability to attend a meeting via Zoom should you not be able to attend in person. For these wonderful features to continue to be available to all members, we desperately need a new sponsor for setting up video equipment and running it during general meetings. We'll also have to acquire some equipment to make integrating Zoom into meetings even possible. Let me know if you have any equipment which you'd like to donate to the club that can be used for this effort. Items include small high rez cameras (minimum of 2, 1080P), a video switcher, a laptop computer capable of

hosting the Zoom secession, a dual video monitor, cables et all. Are any of these items you have laying around that we could use? Are you able to set up and run the equipment? There doesn't have to be only one person to take on this challenge, it could be shared between more than one member. But we need equipment as well as members committed to making this a continued part of our general meetings. Please contact Joel or me if you have questions or are interested in participating in this valuable activity.

Along with Joel moving, we need someone with an interest in maintaining the repeater equipment in South East SJ. There isn't a huge amount of work to be done here but checking the equipment through the internet regularly is required along with taking care of any issues that come up. That also means you need a working understanding of repeaters et all. Email Joel or myself if you have any questions on what's required or wish to volunteer.

You might have noticed this issue is smaller than in the past. It seems that out of around 150 members, no one could submit a story for this month! I know everyone is busy but I also know that many people enjoy reading the various stories members submit which make PAARGraphs such a worthwhile publication. With that said, will you pen a story for PAARGraphs? I'll bet you have some experience you'd like to share with everyone. So, PLEASE, let's get some stories in the hopper so we don't have another issue go without the main story!

73, Jim K6SV

Get on the air to keep the airwaves alive!

April 2021 Board Meeting Minutes

Present were President Jim Thielemann K6SV, Vice President Rob Fenn KC6TYD, Secretary Ric Hulett N6AJS, Treasurer Bob Korte KD6KYT, Directors Doug Teter KG6LWE, Darryl Presley KI6LDM, Joel Wilhite KD6W, Walt Gyger K6WGY. Also attending was ASVARO representative Clark Martin KK6ISP.

A quorum was present and the meeting was called to order at 7:00 pm.

(Minutes — Continued on page 3)

(Minutes — Continued from page 2)

President's Report: Saturday May 14 is the next Electronics Flea Market, and this time the sponsoring club is PAARA! This is the major fundraising event for our club. PAARA needs volunteers to make this a success: We need members to set up the tent, sell coffee and donuts, collect fees from vendors and guide them, and several other tasks. We will need volunteers as early as 5:30 at the site.

Please contact Jim K6SV (THIELEM@Pacbell.net) to volunteer.

Secretary's Report: The big run of member renewals is behind us. Our membership remains strong at 151 members. Contact Ric (N6AJS@ARRL.net) to select PDF newsletter delivery, or to update your e-mail address or other details.

Treasurer's Report: We issued checks for PAARAGraphs printing and for electricity cost for the repeaters.

VP / Program Chair Report: The May speaker is George Zafiroopoulos KJ6VU, the developer of the PackTenna. His presentation is on "Packing Like a Backpacker"

Old Business:

We currently have no articles for next month's PAARAGraphs. Sunday is the deadline!

With no submissions, the next month's article will be titled "Lorem Ipsum, Dolor Sit Amet".

All members are encouraged to draft an article for PAARA, even a short one. PAARAGraphs is one of the key features of the club, and member articles make it so.

The board discussed the storage situation at the N6NV location. We need to organize a work party to haul electronic stuff from the house, once Gerry is ready.

New business:

PAARA equipment sale: Response to the sale posting was pretty good. We have raised \$3447 from sales of donated equipment. There is still a list of equipment on the PAARA website.

The board set dates for PAARA meetings from

September through August 2023, on the first Friday of each month except for September 8 (due to Labor Day).

Repeater update: still working. We need to update the microwave link for internet service from the repeater site. This is a backup link; the existing internet is currently working well.

Education Committee: The education committee has built an outline for an 'Intro to Ham Radio' presentation for new hams. It is arranged for one session, four hours. Date and location are TBD.

Electronic Flea Market: The next EFM is May 14, and PAARA is the sponsor. PAARA will sell vendor spaces, and also will sell donuts and coffee (\$2), and tea (\$1). We have many jobs to do: Members, please step up to volunteer! See the President's column for more information.

The April EFM was sponsored by WVARA (West Valley), and they netted about half the income of prior years, but it was income and not a loss.

Tower removal: The K6JAT tower removal work party is scheduled for April 23.

Field Day: We have not yet been successful in obtaining permits for Bayfront park from the city of Menlo Park. Ric N6AJS will provide a survey to measure the membership's interests.

The board decided to hold an in-person and zoom hybrid meeting for May. We need to start the meeting promptly at 7:00. Zoom support for meetings after May needs to be resolved.

Finances: The board reviewed the financial summaries for 2020 and 2021. Although these were unusual years due to the pandemic, the club has maintained a steady reserve, and had minimal net outflows for these two years.

The meeting was adjourned at 8:55 pm

Respectfully submitted,
Ric Hulett N6AJS
PAARA Secretary

April Raffle Winners
Left to Right

- | | |
|-----|--|
| 4th | Darryl KI6LDM — IRWIN VISE-GRIP Wire Stripper, Self-Adjusting, 8 inch |
| 3rd | John KJ6JPS — Uniden (BC20) Bearcat 20-Watt External Communications Speaker |
| 2nd | Karen KK6NGA — OLIGHT Swivel 400 Lumens LED Compact Rechargeable Magnetic COB Work Light |
| 1st | Joel KD6W — Surecom SF401 Plus 27 Mhz-3000Mhz Radio Portable Frequency Counter Meter with CTCCSS DCS Decoder |

PAARA Badges

In the absence of in person meetings, you can still order a badge from the Club's website, PAARA.org. Go to the bottom of the membership page to order. Badges will be mailed to purchasers, at an additional cost of \$4.95 until we can meet face to face again.

PAARAGraphs Ad Rates

PAARAGraphs accepts paid advertisements from non-members. (short personal ads remain free for members in good standing). All ad rates listed are per issue.

1. Not-for-profit ads by association members for ham-related items and wants. No cost for business card-size ads (additional space at \$2.50 per business card size per issue).

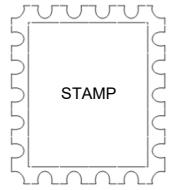

2. For Profit organizations and/or individuals: \$5-business card size, \$14.00-quarter page, \$25-half page, \$50 full page or back cover per issue.

These fees may be reduced or waived in exchange for a valuable consideration that is given to the Association or its general membership. Such consideration must be in addition to any existing arrangements with the association. The PAARAGraphs editors reserve the right to reject any ad deemed to be not in the best interest of the Association.

All fees payable in advance by the year with "scanner-ready" copy or text-only ads. Give payment and copy to Walt Gyger, K6WGY.
