# PAARAgraphs

The Official Newsletter of the

**Palo Alto Amateur Radio Association, Inc.**

The Friendliest Club Around

Celebrating 88 years as an *active* amateur radio club—*Since 1937*<http://www.paara.org/>

## Amateur Radio at Columbia University History to Present Day Jacob Boxerman, KE2CZX

I am a senior at Columbia University studying computer science, with an interest in radio. I restarted the Columbia Space Initiative's High-Altitude Balloons program and have made amateur radio an important part of our mission.

In my presentation I will discuss the Columbia Space Initiative's use of amateur radio in our High-Altitude Balloons mission. We built a very low budget APRS tracker for use with a launch, and over the past semester we designed micro HF trackers for use on lightweight balloons.

In addition, I will share the history of Columbia's amateur radio club, W2AEE, one of the oldest college clubs in the country.

**This meeting will be a  
Hybrid Meeting  
Zoom and In Person**

Time: Aug 1, 2025 07:00 PM Pacific Time

## President's Corner

Happy summer everyone! This is the first PAARAgraphs since Field Day 2025, so we're doing something a little different this month. We're including a scrapbook of some of the photos that we took during the Field Day activities to remind us of how much fun we had last month, and to create a fun record so in the future when people look back at old issues of PAARAgraphs, they can see what we were doing at Field Day this year. Thanks to

(President — Continued on page 2)

Question  
of the  
MONTH

What does the RIT (sometimes called "clarify") function do on a radio?

*(President — Continued from page 1)*

Marty, W6NEV for contributing his thoughts about Field Day this year as well. I hope you enjoy this month's Field Day retrospective.

There were some interesting items in the ARRL Member Bulletin this month. The ARRL Board approved a year-long celebration of the semiquincentennial of the United States. This will include commemorative ARRL US250 Worked All States awards from contacts made during 2026, as well as other on-air activity. The Board also approved making 2026 the Year of the Club and passed other motions in support of the initiative including creating a book of high performance clubs, recognizing clubs with high ARRL membership levels, and working with and recognizing outstanding club web sites. We'll keep an eye on these developments and make sure that PAARA participates and is recognized where appropriate. Lastly, the ARRL Historical Committee met to review the ARRL Heritage Museum's online collection, Radio Alpha, which currently features more than 3,000 images and documents. The repository is now online and can be found at [www.arrl.org/arrrl-museum-and-research-library](http://www.arrl.org/arrrl-museum-and-research-library). I hadn't seen this collection before, but it looks like a fun way to generate some nostalgia and you might enjoy exploring it as well.

A quick note about some upcoming activities. PAARA will be making a field trip to the USS Hornet on August 23rd (see page 10 for details) and we will be doing a PAARA in the Park event on September 13th. Note that PAARA in the Park will be at Rengstorff Park in Mountain View rather than our usual location in Cupertino. Look for more information about both events on [paara.org](http://paara.org) over the coming weeks.

I hope to see you at the next meeting on August 1st, either IRL or on Zoom! If you're there in person, please join us after the meeting for pizza and lively conversation at Mountain Mike's across the parking lot. We'd love for you to join us!

73, Bob KN6YGN

Get on the air to keep the airwaves alive!

## **A Comment on Field Day 2025**

Field Day 2025! What a wonderful, frustrating contest. Yeah, the ARRL says it's not a contest, but an operating event designed to show the public and public officials the ability Ham Radio has to assist in local, state, and national disasters. To the avid ham, it's a contest!

For many clubs, the challenge is to set up a wholly self-contained ham radio station in an environment not really amenable to the operation of radios, the equipment required to make communications possible, and the support services needed to make the event possible. PAARA annually sets up in beautiful Bedwell Bayfront Park at the east end of Marsh Road, Menlo Park CA, an ex-garbage dump that overlooks much of the South San Francisco Bay.

There is a great view of the East Bay hills, the smell of the salty bay, the salt ponds and tidal flats, along with the hot days, cold nights, squirrel holes, bugs, calm mornings and windy afternoons, all designed to make one ask, why here, why me, is this really fun? Well, it is fun, really fun! It's not because there are no challenges but because there are challenges.

Field Day brings members of our radio club together to face these challenges of setting up antennas, operating positions, a food court and everything else needed to make this event possible. This is why it's fun, people working together for the specific purpose of making as many radio contacts as possible along with collecting bonus points for other sundry radio contact opportunities within a 24-hour operating window. It is an operating event that really smells like a contest.

I'm not mentioning names here for fear of leaving someone out, but thanks to the field day coordinator, the station captains, the food court coordinator, and the many other club members and non-members, who made this 2025 Field Day event a success regardless of where we land in the operating event rankings.

I'm tired, sore, a little sunburned, my clothes and car are filthy, but I can't wait for Field Day 2026, an operating event that really smells like a contest.

Marty, W6NEV,  
Proud member of PAARA

Antenna raising party.  
Everybody grab a guy wire!

Climbing the tower to  
secure the big antenna.

The view from atop the big antenna.

Cisco brought their Crisis Response Truck  
to demonstrate their capability and make  
some contacts.

*PAARAgaphs — August 2025*  
*Celebrating 88 years as an active ham radio club—Since 1937*

Working the GOTA station.

Working FT4 and FT8 at the digital station.

Getting a drone demonstration from Menlo Park Fire.

Enjoying some shade and great food at the hospitality area!

Setting up the satellite station antennas.

Working the satellite station.

We saw a row of what we think are Starlink satellites while stargazing during the night.

Evening shade and discussion about the day's activities.

Late night conversation, hot chocolate, and coffee.

Waking up in the early morning and waiting for coffee.

Field Day is all about teamwork!

All packed up and ready for a nap. See you at Field Day 2026!

## July Board Meeting Minutes

Present were: President Bob Ridenour KN6YGN, Secretary Ric Hulett N6AJS, Treasurer Margaret Cooper K6WEK, Directors Sorin Constantinescu KN6YUH, Doug Teter KG6LWE, Walt Gyger K6WGY. Also attending were Clark Martin KK6ISP and Ben Glick KN6UBF.

The meeting was called to order at 7:06 pm. A quorum was present.

### Officer Reports

- President's Report (Bob):
  - Our ARRL affiliated clubs entry needs to be updated. I will do that this week.
  - I have stamps and mailing labels for PAARAgaphs from Ric. I'll mail the PAARAgaphs when they are printed.
- Secretary's Report (Ric):
  - Club Call Trustees: 3 of our licenses have been updated with the FCC. W6ARA is due for renewal in January: We can start that process 90 days before expiration.
  - Membership: With several new members who joined us at PAARA in the Park, Field Day, or a PAARA meeting, we now have 207 active members! Many of our members elect to receive the newsletter by e-mail. Please let me know ([secretary@paara.org](mailto:secretary@paara.org)) if you want to get the colorful PDF.
  - The board agreed to prototype a way to automate generation of the member roster and related lists from the master list maintained by the Secretary in order to keep the lists updated and in sync.
- Treasurer's Report (Margaret):
  - The State has confirmed that our documentation as a charitable organization is current. Margaret will update our filing this week.
  - The bookkeeping subcommittee will meet in the next few weeks.
  - Costs from Field Day: Total expenses for this year's Field Day were \$2240.31. This included food, the new shelters and cookers, porta-potty, and truck rental.

### Standing Items

- PAARAgaphs Newsletter:
  - Encourage members to draft PAARAgaphs submissions when they talk about an interesting experience. Mention to members that when they tell you a story about something that would be of interest to members, they should draft it into an article.
  - This month will include a Field Day story submitted by Marty W6NEV and a scrapbook of photos and captions from Field Day.
- Education Committee [Darryl]
  - August question of the month:
    - ◆ Proposal: On a radio, what does the RIT function do?

- ◆ Next month, we will have questions relevant to our field trip to the USS Hornet.
- September PAARA in the Park activity:
  - ◆ Date is confirmed for 9/13 at Rengstorff Park in Mountain View
  - ◆ The board approved the purchase of 21 'blinky light' soldering project kits from Jameco.
  - ◆ Decision on the final project pricing was postponed until final cost is understood. The board approved a charge of either \$15.00 or \$20.00 pending final accounting of expected expenses.
  - ◆ Enough coaching volunteers have signed up to support 20 participants.
  - ◆ We will have a kitting/orientation day for volunteers - date is TBD.
  - ◆ We may offer a few solder-free breadboard kits as a separate project. This will be determined in the next few weeks.
- Field Trip to USS Hornet [Rob]
  - Date is Saturday, August 23, 2025
  - There won't be any pre-scheduled group activities or pre-purchased group tickets. We'll plan to meet up at a few points during the day.
  - We'll put a note in PAARAgaphs about the field trip and will also send an email notice to [announcements@paara.org](mailto:announcements@paara.org).
- IT Subcommittee Updates [Sorin]
  - The Discord server is full of lively conversations, and we invite all our members to give it a try. We're currently at 83 members, and we hope to see you all there! PAARA is the only club in the area with a Discord channel!
  - The Webmasters are busy at work, keeping the website content up to date. If you have any website feedback, please email [webmaster@paara.org](mailto:webmaster@paara.org).
  - Two new email groups have been created: a public one for PAARAgaphs submissions ([paaragraphs@paara.org](mailto:paaragraphs@paara.org)) and a private one for PAARAgaphs editors only.
  - Newest club members have been added to the PAARA Announcements list.
- Coffee Duty [Bob/Sorin]
  - The board discussed the preferred size for coffee cups, as we will need to replenish our supply. The board agreed to stick with the 10 oz size.
- PAARAgaphs Advertising [Walt]
  - Micro Center is now open! Bob will visit Micro Center and Central Computer in person to solicit their advertising.
- 900 MHz repeater status [Christopher]
  - UPS batteries have been replaced.
  - We have a replacement armored ethernet cable to

*(Minutes — Continued on page 8)*

(Minutes — Continued from page 7)

prevent further rodent damage.

- o Our Allstar and Echolink nodes, the AREDN dish, and the repeaters are all using the call W6OTX.

- Status of Radio loaner program [Doug]

- o The board agreed to put information about the radio loaner program on the PAARA website, so that members are aware of the opportunity.

### New Business

- Field Day Recap:

- o Jim sent the FD filing for this year (along with the one from last year)
  - ◆ Fewer overall points this year (due to fewer contacts)
  - ◆ Significantly more bonus points, though.
  - ◆ More participants than last year (even though we had fewer contacts made). We are happy with the increased participation! More important than the score.
  - ◆ Next year, station captains will be pushing for more scheduled operators, especially in the nighttime hours.

- o Major items of feedback to discuss:

- ◆ Coordination with the city: Menlo Park city involvement was modest, and we want to continue with a good relationship.
- ◆ Shelters vs. U-Haul trucks: The new shelter for the GOTA station worked quite well. We may choose to eliminate the U-Haul trucks, and add more shelters. No decision was reached, but Doug will do some more research.
- ◆ Chairs: We need more chairs for the hospitality area. We will look at some options for folding chairs and decide. The chairs for the radio stations are OK for now.
- ◆ Club Laptop Replacement:
  - ◇ The current laptops are several years old, and they are showing their age.
  - ◇ Bob has evaluated several options for replacement, including used, refurbished, and new computers.
  - ◇ After reviewing the options, the board agreed that we should buy new Lenovo V15 laptops. These come with a quad-core (8 thread) processor, 16GB of RAM, 512 GB SSD, and the required ports (USB, HDMI). They can also be charged over USB-C with common power adapters.
  - ◇ We don't have a formal quote, but 5 computers should cost about \$2000, all in.

The meeting was adjourned at 9:19 PM.

Respectfully submitted,

**Ric Hulett N6AJS**  
**PAARA Secretary**  
**DR**

## PAARA Field Trip to the USS Hornet Sea, Air, and Space Museum

Save the date! PAARA will be visiting the USS Hornet on August 23rd! We are not able to reserve specific tours for PAARA on that date, so members will be responsible for purchasing their own admission and tour spots from the USS Hornet web site or at the museum. You may recall that Geoff Abreu K6ERA made a presentation on The USS Hornet and amateur radio on the USS Hornet at the October 2024 meeting. Geoff's presentation can be viewed at <https://paara.org/meetings/2024/202410.html>. Look for more information and details about the field trip on paara.org.

**Meeting Location — Middlefield Road  
between San Antonio and Charleston in Palo  
Alto. 4000 Middlefield Road**

## PAARA Weekly Radio Net

Info and Swap Session  
every Monday evening at 8:30pm  
on the N6NFI 145.230 MHz repeater

### Week Control Operator

## PAARA Badges

Badges can be ordered through  
 our website [https://paara.org/  
 membership/current.html](https://paara.org/membership/current.html). Scroll to  
 the bottom of the page and fill out  
 the info. All badges will be mailed.

The cost for a badge is \$30.00.

### PAARAgaphs Ad Rates

PAARAgaphs accepts paid advertisements from non-members. (short personal ads remain free for members in good standing). **All ad rates listed are per issue.**

- Not-for-profit ads by association members for ham-related items and wants. No cost for business card-size ads (additional space at \$2.50 per business card size per issue).
- For Profit organizations and/or individuals: \$5-business card size, \$14.00-quarter page, \$25-half page, \$50 full page or back cover per issue.

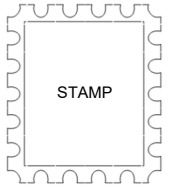

These fees may be reduced or waived in exchange for a valuable consideration that is given to the Association or its general membership. Such consideration must be in addition to any existing arrangements with the association. The PAARAgaphs editors reserve the right to reject any ad deemed to be not in the best interest of the Association.

All fees payable in advance by the year with "scanner-ready" copy or text-only ads. **Give payment and copy to Walt Gyger, K6WGY.**

**\*Free Shipping and Fast Delivery!**

**FTDX101MP | 200W HF/50MHz Transceiver**

- Hybrid SDR Configuration • Unparalleled 70 dB Max Attenuation VC-Tune • New Generation Scope Display, 30SS • 40/100kHz Band Indication • MPD (Multi-Purpose) VFO Driver Duo • PC Remote Control Software to Expand the Operating Range • Includes External Power With Matching Front Spacer

**FTDX10 | HF/50MHz 100 W SDR Transceiver**

- Narrow Band and Direct Sampling SDR • Down Conversion, 9MHz IF • Roofing Filters Produce Excellent Shape Factor • 5" Full-Color Touch Panel w/3D Spectrum Stream • High Speed Auto Antenna Tuner • Microphone Amplifier w/2-Stage Parametric Equalizer • Remote Operation w/Optional LAN Unit (SD-LAN10)

**FT-991A | HF/VHF/UHF All Mode Transceiver**

- Real-time Spectrum Scope with Automatic Scope Control • Multi-color waterfall display • State of the art 32-bit Digital Signal Processing System • 3kHz Roofing Filter for enhanced performance • 3.5 inch Full Color TFT USB Capable • Internal Automatic Antenna Tuner • High Accuracy TCXO

**FTDX101D | HF + 6M Transceiver**

- Narrow Band SDR & Direct Sampling SDR • Crystal Roofing Filters Phenomenal Multi-Signal Receiving Characteristics • Unparalleled -70dB Maximum Attenuation VC-Tune • 15 Separate (HAM 10 + 6M S) Powerful Band Pass Filters • New Generation Scope Displays 3-Dimensional Spectrum Stream

**FT-710 Aess | HF/50MHz 100W SDR Transceiver**

- Unmatched SDR Receiving Performance • Band Pass Filters Dedicated for the Amateur Bands • High Res 4.3-inch TFT Color Touch Display • AES3 Acoustic Enhanced Speaker System with SP-40 For High-Fidelity Audio • Built-in High Speed Auto Antenna Tuner

**FT-891 | HF-50 MHz All Mode Mobile Transceiver**

- Stable 100 Watt Output • 32 dB IF DSP • Large Dot Matrix LCD Display with Quick Spectrum Scope • USB Port Allows Connection to a PC with a Simple Cable • CAT Control, PTT RTTY Control

**FT-3185RASP | Heavy-Duty 85W 2M FM Transceiver**

- Massive HeatSink Ensures Reliable 85W RF Power • Super-DX Function Increases Receiver Sensitivity & Weak Signal Reception • 221 Memory Channels • Large 5-Chance Alpha-Numeric Display

**FTM-150RASP | 2M/430MHz FM True Dual Band Xciv**

- Dual Receivers (V-U, U-U, U-V, U-V) Operator • 55W VHF & 50W UHF • Heavy Duty Real Sink w/Universal RF Connection Conductor • Front & Rear Body Speaker for 6W High Quality Audio

**FTM-510DRASP C&F/N/FM 144/430MHz Dual Band Xciv**

- New Super-DX A&P Inductive Digital Signal Processor Unit • True Dual Band Receiver (V-U/U-U, U-V/U-V) • C&F/N C&F/N Digital D-D Dual Receiver • 2.4" High-Res Full-Color Touch-Pane Display • Wireless Operation Capability with Optional Bluetooth® Header

**FT-60R | VHF/UHF Rugged Dual Band**

- Over 1000 Memory Channels • Wide Bank Receiver Coverage • High Power Output 5 Watts • High/Low Dring • 100A Storage Weather Alert with Alert Scan

**FT-70DR C&F/N/FM 144/430MHz Xciv**

- System Fusion Compatible • Large Front Speaker delivers 700 mW of Loud Audio Output • Automatic Mode Select: detects C&F/N or FM Audio and Switches Accordingly • 1000 1, 105 Channel Memory Capacity • External DC Jack for DC Supply and Battery Charging

**FT-5DR C&F/N/FM 144/430 MHz Dual Band**

- High-Res Full-Color Touch Screen TFT LCD Display • Easy Hands-Free Operation w/Built-in Bluetooth® Unit • Built-in High Precision SPS Antenna • 1200/800bps AFSK Data Communications • Supports Simultaneous C&F/N Digital • Micro SD Card Slot

**FT-65R | 144/430 MHz Transceiver**

- Compact Commercial Grade Rugged Design • Large Front Speaker Delivers 1W of Powerful Clear Audio • 5 Watts of Portable RF Power With-in a compact Body • 3.5-Hour Rapid Charge Included • Large White LED Flashlight, Alarm and Quick Home Channel Access

**VX-6R | VHF/UHF Dual Band Hand-Held**

- Big-Radio Features in a Compact Package • Wide-Band Receiver Coverage for Catching All the Action • 900-Channel 24-Bank Memory System • Outdoor-Ready Features Including Waterproof Rating • Smart Search Automatic 51-Channel Scanning/Locking System
